INFINITY SERIES

Carrier Clears the Air for Enhanced Comfort

Things to Consider Before You Buy

You Can Enjoy a Cleaner, Fresher Indoor Environment

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. To take your indoor comfort to an entirely new level, Carrier Healthy Home Solutions offers a comprehensive family of products designed to clean and refresh the air inside your home. These products include:

- Air purifiers and cleaners
- UV germicidal lamps
- Fresh air ventilators
- Humidifiers
- The Infinity™ System

High Efficiency Air Purification

If you could examine the air inside your home, you might be surprised to find contaminants such as viruses, bacteria, mold spores, pollen and animal dander. In fact, indoor air can be up to five times more polluted than outdoor air. Carrier Healthy Home Solutions offers a variety of air purification and filtration products that fine tune your indoor environment by removing these pollutants from the air you breathe.

The Infinity™ Air Purifier offers extremely high air filtration efficiency and patented germicidal technology so effective it even captures and kills airborne pathogens such as bacteria, viruses and mold spores. And, the Infinity Air Purifier is as convenient as it is powerful because no cleaning is required. Just periodically replace a removable cartridge.

Ultraviolet Germicidal Lamps (UV Lights)

Mold spores, bacteria and fungi can invade the dark, damp surfaces of your cooling coil. Left unchecked, buildup of these contaminants can reduce system efficiency and release potentially harmful pollutants such as mold spores and unpleasant odors into the air you breathe.

As part of Carrier Healthy Home Solutions, the germicidal UV lamp bathes the cooling coil with intense UV-C light, helping to sterilize its surfaces while maximizing system efficiency and protecting the air you breathe.

- UV lights are mounted inside your system, near the indoor cooling coil, where fungus and microbes may grow and pollutants can collect.
- No cleaning is required. Simply replace the lamps once a year and you can continue to enjoy cleaner, healthier air and enhanced system efficiency.

Fresh Air Ventilators

Newer, more tightly constructed homes are designed to conserve energy. At the same time, they can trap airborne particles, gases, unpleasant odors, and moisture allowing them to re-circulate throughout your home.

Carrier fresh air ventilators work behind the scenes to remove these pollutants and refresh your indoor environment while saving energy. It's kind of like opening all the windows without letting heated or cooled air escape.

Humidifiers

Overly dry air can cause itchy, cracked skin, dry nasal passages, static shocks, and cracked woodwork. Adding a Carrier humidifier can help alleviate these conditions.

In addition, more airborne moisture means less opportunity for dust and other irritants to circulate in the air that you breathe.

Carrier humidifiers can even help you save money on your energy bills, since humidified air actually feels warmer than dry air – so your control can be set to a lower temperature.

The Infinity™ System

Carrier's patented Infinity™ System gives you ultimate control over temperature, humidity and airflow providing you the best in comfort and indoor air quality.

- The Infinity™ System delivers enhanced air cleaning capabilities with nearly continuous flow of air through your system's filters. And, with our economical, multi-speed continuous fan, you can experience even greater air cleaning.
- True Sense™ dirty filter detection lets this system tell you *exactly* when your filters need to be cleaned or replaced. This feature greatly increases the likelihood that you will maintain optimum air cleaning performance.
- With Carrier's unique IdealHumidity™ function, the Infinity System puts you in control of your humidity like never before, squeezing extra moisture out of the air during the cooling season and giving you control of your humidifier from one convenient location during heating.

Carrier's patented Infinity™ Control is the key to an Infinity™ System with unprecedented utility and ease of use.

Improved Indoor Comfort and Cleaner Air

Humidifier adds moisture to dry air.

Evaporator Coil allows the refrigerant to absorb heat from the air as it passes over the coil surface. The evaporator coil is located with the indoor unit and is also referred to as the indoor coil.

Furnace provides reliable, high efficiency heating for long-lasting comfort and energy savings. Available in high efficiency gas- and oil-based fuel sources.

Air Purifier improves air quality by removing harmful and irritating airborne pollutants from the air in your home.

Ultraviolet Germicidal Lamp inhibits the growth of contaminants on the indoor coil, leaving your home with cleaner, fresher indoor air.

Ventilator combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.

Zoning sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.

Air Conditioner provides reliable, ultra high efficiency cooling for long-lasting comfort and energy savings.

Infinity™ Control allows precise temperature and humidity control and provides programmable features to further customize your comfort.

Warranty

We are proud of the measures we take to ensure the quality of our products. That's why we back our entire product line with written warranty protection.

- All Carrier products are backed with our standard, five-year limited warranty.
- Optional extended warranties are available on most models.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
